# ABOUT US

To remove mental and physical challenges from the minds of individuals by providing them a loving environment so as to free them from fear and self pity along with education with training that will create competence in personality in their respective fields & instill a sense of self esteem to seek joy and independence.

# WHAT IS CRYPTOCURRENCY?

---

·What are Bitcoins?

Bitcoin is the world's first successful decentralized cryptocurrency and payment system, launched in 2009 by a mysterious creator known only as Satoshi Nakamoto.

The word "cryptocurrency" refers to a group of digital assets where transactions are secured and verified using cryptography—a scientific practice of encoding and decoding data.

Those transactions are often stored on computers distributed all over the world via a distributed ledger technology called blockchain (see below.)

Bitcoin can be divided into smaller units known as "satoshis" (up to 8 decimal places) and used for payments, but it is also considered a store of value like gold.

This is because the price of a single bitcoin has increased considerably since its inception—from less than a cent to tens of thousands of dollars. When discussed as a market asset, bitcoin is represented by the ticker symbol BTC.

# VISION

Smart contracts are the most amazing innovation in the blockchain industry. Smart contracts are a gift from God to mankind and have the potential to change the entire crypto industry forever if implemented wisely. Many smart contracts/apps have been launched since its inception and have made many people rich so far. However, when we put it together, some loopholes need to be addressed if we want to use it as a more powerful and secure tool to generate wealth through the blockchain/crypto industry and make it a full-time/lifetime career.

# MISSION

Our mission is to reach maximum number of people/communities looking for lifetime income opportunities through a secure/ affordable/ easy and simple decentralized platform.

# BLOCKCHAIN

In a few words, a blockchain is a digital ever-growing list of data records. Such a list is comprised of many blocks of data, which are organized in chronological order and are linked and secured by cryptographic proofs.

· The first prototype of a blockchain is dated back to the early 1990s when computer scientist Stuart Haber and physicist W. Scott Stornetta applied cryptographic techniques in a chain of blocks as a way to secure digital documents from data tampering.

The work of Haber and Stormetta certainly inspired the work of Dave Bayer, Hal Finney, and many other computer scientists and cryptography enthusiasts - which eventually lead to the creation of Bitcoin, as the first decentralized electronic cash system (or simply the first cryptocurrency).

The Bitcoin whitepaper was published in 2008 under the pseudonym Satoshi Nakamoto. · Although the blockchain technology is older than Bitcoin, it is a core underlying component of most cryptocurrency networks, acting as a decentralized, distributed and public digital ledger that is responsible for keeping a permanent record (chain of blocks) of all previously confirmed transactions.

Blockchain transactions occur within a peer-to-peer network of globally distributed computers (nodes). Each node maintains a copy of the blockchain and contributes to the functioning and security of the network.

This is what makes Bitcoin a decentralized digital currency that is borderless, censorship-resistant, and that does not require third-party intermediation.

# WHAT IS BINANCE?

---

Binance is an international crypto exchange that operates in a large number of countries around the world.

Binance cryptocurrency exchange -We operate the world's biggest bitcoin exchange and altcoin crypto exchange in the world by volume.

Binance is a company that operates the largest cryptocurrency exchange in the world in terms of daily trading volume of cryptocurrencies. It was founded in 2017.

Binance was founded by Changpeng Zhao, a developer who had previously created high frequency trading software.

Tether or USDT is a stablecoin operated by Bitfinex, a cryptocurrency exchange based out of Hong Kong.

The currency works on the Ethereum blockchain. USDT converts the cash someone provides into a digital currency, ensuring the coin is valued at the price of various national currencies, including the US dollar.

# INCOME

## 5 Types of Income

1. Mining Income

2. Affiliate Income

3. Binary Income

4. Level Income

5. Coin Bonus

# BINARY INCOME

Binary Income  
10%

Binary Income 1:2 or 2:1 1st pair after 1:1 unlimited

# LEVEL BONUS

1000\$	150\$
3000\$	350\$
8000\$	500\$
15000\$	1000\$
30000\$	2000\$
50000\$	3000\$
100000\$	4000\$

Only affiliate and Binary income will be calculating For level income.

# TERMS & CONDITIONS

1. MINIMUM WITHDRAWAL 10 \$
2. ALL THOSE INCOME 24×7 WITHDRAWAL
3. MINIMUM 2 DIRECT SPONSOR IS MANDATORY FOR 100% NON WORKING INCOME OTHERWISE WILL GET 25% IF THAT TIME 1 DIRECT SPONSOR WILL GET 50% NON WORKING INCOME
4. WORKING INCOME IS 3X COMPLETE YOUR ID IS RE-TOP UP
5. 10% P2P 10% W/L DEDUCTION OF ANY INCOME FOR MAINTENANCE AND GLASSES
6. 20% of total income will be converted into CT Coin your ID.
7. FOR FUTURE ANY CHANGES OR UPDATES ANYTIME RESERVE RIGHTS CRYPTOTIGER.IO
